We Hold Every Trench We Take

That's just a military way of expressing Wallach Service-and the reputation we have for keeping our customers satisfied.

It's really a very simple affair-

If you find some little thing in a suit you buy here that isn't just what you expected-bring it back to us. We make it right.

Or-if we can't-we have your money ready for you. No question about it at all.

Of course we carry the kind of clothes that are most likely to please most men. We don't believe there are any better tailored clothes at their price in the world than

Hart Schaffner & Marx Suits

Their famous Varsity Fifty Five Styles for young men; and their Sport Suits-have a deal more snap and vigor than most custom tailored clothes at double their price.

You'll do mighty well for yourself by coming in-

Suits at \$18, \$20, \$22.50-and plenty of them. Widest selections at \$25. Others at \$28, \$30, \$35, and so on up to \$50.

Much to the surprise of the committees, it was found that there were still women left in the convention whose diet was not limited yesterday to tea and toast. There were two hundred guests at the industrial and isocial uncheon at the Hotel Astor, and they listened gravely to eighteen speakers. John Haynes Holmes made a plea for international brotherhood.

William II. C. Walker, another member of the American Ambulance, who has been stationed near Verdun, came with him.

To-day will be play day. The delegates have their choice of seven excursions—to West Point, Tarrytown, Coney Island, Ellis Island, Blackwell's Island, a municipal tour, and a Brooklyn tour. Tickets for all the trips were exhausted by noon yesterday, and the committees had to flee from the dozens of improvident sisters who were clamoring for more. Dr. Katharine B Davis will conduct the trip to Blackwell's Island, and Mrs. Marcus M Marks has charge of the municipal trip for which many prominent New York women have lent their automobiles and have been practising for a week with megaphones. The West Point trip, which is to have the largest party, is under the auspices of the New York Chamber of Commerce and will be conducted by Edward N. Loomis, William W. Owens, David T. Abercrombie, Fred B. Dalziel, Elihu C. Church and Charles T. Gwynne.

Conducted by Samuel Hopkins Adams.

This department has entered the second stage of service to Tribune readers. Primarily it was intended merely to separate the sheep of advertising from the goats-and hang a bell on the goats. But now it goes beyond mere identification. It embraces a human nature study of both sheep and goats. You are invited to assist. For every letter printed in this department describing experiences-pleasant or unpleasant-with advertisers of merchandise, excepting only patent medicines, The Tribune will send \$2.00, payable in any merchandise of any Tribune advertiser. For the most important letter each month a special prize of \$50.00, payable similarly, will be awarded. Name printed or withheld-as you prefer, but must be signed or we will not know where to send the prize order. Address: The Ad-Visor, The Tribune, New York.

In a recent number of "Newspaperdom" one Bert L. Moses, of the Proprietary Association of America (the patent medicine organization, the membership roster of which is a carefully guarded secret), devotes an article to denunciation of physicians who attack nostrums in the public prints. As a horrible example he selects H. E. Barnard, of the Indiana State Board of Health. In the Indianian's damaging exposures of patent medicine frauds Moses discerns the unholy lust of the medical practitioner for what he terms "free advertising." Throughout he refers to the object of his scorn as "the doctor"; professes "no doubt that Dr. Barnard frequently prescribes" certain chemicals; and expresses curiosity as to "Dr." Barnard's patients and the "people he has cured."

All of which is interesting and might be germane to Moses's theme.

All of which is interesting and might be germane to Moses's theme, but for one little fact which that perfervid gentleman has overlooked; viz.: that "the good doctor," as Moses bitingly terms him (think of the horrors of being bitten in print by a patent medicine Moses!), doesn't happen to be a physician at all. Therefore he doesn't prescribe; he doesn't "cure," and he has no "patients." He is a chemist of national reputation, but not an M. D., as Moses might easily have ascertained had he been concerned with the facts. But why expect facts of a patent medicine

Moses doesn't matter much. The source of his inspiration is well understood. But "Newspaperdom" has a reputation to conserve. It is not improving that reputation by lending its columns to the false and silly twaddle of a quack-journalist.

However, I was attracted to a suit (reduced in price) in their window and bought it. (They sold me the sample instead of just using it for bait.) It proved to be satisfactory and was worth more to me in wear and satisfaction than I paid for it. As a satisfied customer I then felt that at Stewart & Co.'s I would be more likely to find what I wanted, both as to style and price, than anywhere else.

A few weeks ago I bought another suit there, correct as to style and most reasonable in price, but requiring alteration. After the suit had been altered and sent out to me I discovered a solled streak all around the skirt where the bottom of the original hem had been. I wrote to them and promptly received a check representing the whole sum paid for the alteration. They expressed regret that any garment should have gone from their store in any but first class condition and suggested I could have the skirt cleaned by a first class cleaner with the sum returned. This plan suits me better than for them to have dene it, being more convenient for me.

from the Stewart & Co. of the time, more than a year ago, when I criticised its methods. What I then said of it was then true. On the evidence of watchful investigation since, it would not be true of the store as it is conducted to-day.

I have had an experience—an exciting one, a delightful one. I use an auto-strop safety razor, and lately had occasion to purchase a new strop. I went to the Neva-hone Razor Strop Company, at 1382 Broadway, to purchase one. They told me the Auto-Strop Sales Company had advanced the price on their strop from 50 cents to \$1, but showed me a strop equally as good as the Auto-Strop. showed me a strop equally as good as the Auto-Strop strop for 50 cents, which I gladly bought.

Now, here's the experience: I came home, inserted strop in razor, and, zip! the blade cut the strop in two pieces. The bearings on my razor have worn—I've used it for four years—and the strop, being perhaps too thin, did not turn the blade quickly enough, and so on the back stroke it cut right through. I was disappointed, to say the least; out 50 cents, strop ruined, blade dull, beard tough.

out 50 cents, strop ruined, blade duil, beard tough.

A week after, pieces of strop in hand, I went into the Nevahone shop, chip on shoulder, to make an Ad-Visor test case. The salesman could easily have proved my razor at fault by trying a strop in a new razor. But, taking my name and address, he said he would have a thicker one made, suitable to my worn razor, and treated me, a Tribune reader looking for a chance to send in a complaint, with courtesy and cheerfulness. To-day a new strop came to me by mail, thoroughly satisfactory in every way.

Dr. Brady's vernal invitation is too appealing not to be passed on to the Ad-Visor's readers.

May I tell you of a trunk I purchased? I know you are always willing to extend credit where credit is due.

willing to extend credit where credit is due.

I am a commercial traveller covering from 25,000 to 30,000 miles a year. About one year ago I found I would require a new trunk. I decided on one that I had looked at in Gimbel's store in Philadelphia, Penn. It was an "Innovation," wardrobe style. As I was about to pay for it the salesman advised me that it was guaranteed to last a lifetime. The trunk was elivered next day, but I failed to find any guarantee attached, so I called on the salesman to confirm in writing his verbal statement regarding a guarantee. He assured me that all he could give me was the word of the house of Gimbel. After a few months' haid service a minor defect developed and I called on the "Innovation" Trunk Company, in New York, asking them to make good. This they declined to do, but referred me to Gimbel Bros.

I called at the New York store of Gimbel Bros. I was skentical

to do, but referred me to Gimbel Bros. I was skeptical, but much to my surprise they arranged to call for it, repaired it and even revarnished it, making it like new. Since then I have called on them twice to repair other defects, which they have willingly done. This kind of treatment to a customer is expensive, but it wiss. Since this I have purchased another trunk. Their name on it is all the guarantee I now ask for. I am convinced that the value of any guarantee depends upon the reputation of the house giving it.

COMMERCIAL TRAVELLER.

No wardrobe trunk will "last a lifetime" unless, by that phrase, is meant its own lifetime. But Gimbel's certainly backed up to the limit the super-guarantee of its somewhat over-enthusiastic clerk.
